APPLICATION SERIAL NUMBER

10/092,934

DOES NOT COMPLY WITH THE SEQUENCE RULES. See reasons below.

Sequences appearing in the specification and/or drawings must be identified by sequence identifier in accordance with 37 C.F.R. 1.821(d). In this instance, the amino acid sequence appearing Fig. 1 is not identified by a sequence identification number corresponding to the same sequence as set forth in the Sequence Listing. In addition, there is an amino acid sequence at page 18, line 10, which is not identified by a sequence identification number. Sequence identifiers for sequences appearing in the drawings may appear in the Brief Description of the Drawings. Applicant must provide appropriate amendments to the specification or drawings inserting the required sequence identifiers. If the amendments are extensive then a substitute specification may be required.
